Re: Request for Clarifications and an Extension

Dear Chairman Thompkins,

Please find attached a request for clarifications for the recent charter petition. We are also asking for a 90-day extension to the July 15th deadline so we can create a clear document that leaves as little room as possible for disagreements as we move forward. This extension will also allow LOA to use 2023 test data which should make the petition stronger. Please respond to our request for the extension in writing within two days so we can forward that to the Charter Division. We look forward to working with you over the next five years!

In Kind Regards,

Dr. Chris Houston
